

SiriMoto EV14 550cc Fuel Injectors

- 14mm Round O-Rings must be used for the following applications:
 - Vehicles with **RBC/RRC/PRB Style Manifolds**
 - Acura RSX - 2002 to 2006 (All)
 - Acura TSX - 2004 to 2008 (All)
 - Honda S2000 - 2006 to 2009 (All)
 - Honda Civic - 2002 to 2005 (Si)
 - Honda Civic - 2006 to 2011 (Si)
- *All other vehicles* use the preinstalled 16mm O-Ring.
- When installing the provided 14mm O-Rings, carefully remove the original O-Ring and install the replacements as to avoid damage.
- Whenever the injectors or o-rings are being installed, use the provided grease/lubricant to lightly coat the o-ring sealing surface.
- Always check for leaks and immediately correct any issues if present.
- **Hondata Settings:**
 - **Injector Size:** some vehicles/calibrations prefer a 525cc Flow Rating when adjusting the *Current Injector Size* setting.
 - **Injector Opening Time:**

Voltage	6	8	12	14	16
Time (μs)	6299	2645	1261	955	760
